(i)

Letter—from V. HART, Esq., Executive Engineer, Madura Division.
To—the Superintending Engineer, VI Circle, Trichinopoly.
Dated—the 5th October 1912.
No.—1035-S.E.

I have the honour to report that an estimate amounting to Rs. 210 was sanctioned on 9th October 1910 for constructing a culvert aross Thandalai offtake of fourth branch channel, on the requisition of the Secretary, Cosmopolitan Club, who has carried out the work under the supervision of the Public Works Department. This estimate was not brought in the monthly return of sanctioned estimates, probably by oversight. The work is since completed and the completion report received from the Sub-Division Officer, Periyar. I understand that the work being solely in the interest of the Club it should be classed as a full contribution work and the supervision charges recovered from the Club authorities. These contage charges having since been included in the amount of the estimate already sanctioned by my predecessor, it comes to Rs. 261-7-2 for which a fresh estimate is submitted with a request that sanction of Government with reference to G.O. No. 330 I., dated 24th October 1911, may be obtained under the circumstances explained above.

(ii)

Report to accompany the estimate for constructing a road culvert across the Thandalai offtake (which supplies the Thallakulam tank) for Cosmopolitan Club, Madura.

	RS.
Amount of estimate	210

The estimate has been prepared on the requisition of the Secretary, Cosmopolitan Club, Madura, and it provides for a culvert with a roadway of 10 feet clear.
